

## JUSTIFICATION FOR LOCATING THE PROJECT IN FOREST AREA

The Minor Irrigation Department, Government of Manipur is planning to increase the command area for the Gated weir near Sekmai Old bridge. The weir is providing Irrigation upto Mongjam area and the department is further planning to increase the command area upto Heingang. But the canal is required to by-pass the high gradient of the heingang chingjil. There is no alternative route to divert the canal. So, the department is in need to utilise the forest area of 0.027 Ha of Heingang Chingjil.

Hence, the project.
