

CHECK LIST SERIAL NO.:- 09

JUSTIFICATION FOR LOCATING THE PROJECT IN FOREST AREA

The area 04-53-38 hectare of forest land is required for the construction of road from Bijmal to Halau via Shallan GP Halau km. 0/0 to 7/0. The construction of this road 04-53-38 hectare of forest land is required to be diverted.

Two alternative alignments were examined but same were not technically feasible because in both the alternative alignments large numbers of trees & more length of the road are coming in the alignment and rejected. The proposed road necessarily passes through forest land because there is no non forest land is available. Hence there is no escape from using the forest land.
