The total length of the road is 8.300 Kms. out of which 7.500 Kms. of road will pass through the forest land and 0.800 Kms. will be pass through private land. This road will be constructed to provide motor able link to the village Halan and other adjoining sub villages. For the construction of this road and for dumping muck at proper dumping sites 4.75 ha area of forest land is required to be diverted.

All the beneficiary villagers are surrounded by forest. There are no other alternatives but to follow the proposed alignment to avoid breaking of more forest land, so as to give connectivity to the above villages. Hence there is no escape from using the forest land. As no other site alignment is feasible.
