NOTES

Heights are in metres and above Indian mean sea level. Contours are approximate. A reference height, etc., represents the approximate height, in metres, between the top and bottom of a given object. The triangulated heights and contours in this sheet have not been adjusted to the heights of the geoid-ellipsoid bench-marks and may not be strictly in accordance with them. The contour boundary between Raigarh R.F. and Urdana R.F. in squares A-7, B-7 & C-7 has not been shown for want of reliable information. The state boundary between Chhattisgarh and Orissa States has been surveyed and printed out by the local officials on the ground but has not been verified by the Government concerned. The exterior boundaries of areas of Reserved or Protected Forests are shown by green ribbons. Hand Pump is shown like this.
