NOTES :-

Contours are approximate.
 Heights are in metres and above Indian mean sea level.
 Cultivation is periodic and dependent on rainfall.
 A relative height, .6r, represents the approximate height, in metres, between the top and bottom of a steep slope.
 The exterior boundaries of Reserved or Protected Forests are shown by green ribbons.
 Tanks shown dry in this sheet usually contain water from July to March.
 All unmetalled roads in this sheet are motorable in dry season.
 A relative height e.g., .6r marked along a canal indicates the height of the top of the canal embankment above the adjacent country.
