

COST BENEFIT ANALYSIS.

Optical Fibre Cable Routes Proposed in Forest Land and through the district is a high grade, large capacity communication system, which will provide Broadband Wireless Access (BWA) & related Data Services. This system is to extend the communication facility to millions of population of the state. In addition to the common public the system will be used by Ministry of Defence, Railways, Industries, and other core sectors exclusively dependent on Telecommunications.

Optical Fibre Cable will be carried out through award of works on contract after calling for tender, the work will require extensive engagement of manual labour, this will generate employment for the public in the vicinity of the proposed land. Entire District population will be benefited due to the expected employment to be generated for commissioning of this project.
