HEIGHTS & CONTOURS IN METRES

Water features are shown in blue where they generally contain water.
Multicolored areas are indicated yellow.
The outside boundaries of areas of forested or protected farmland are shown by green (thick).

Other variables

The following state variables along roads, the railway and canal are shown in short type, e.g. "1" shows information; 0 means it is absent in a given type, e.g. "1".

A relative height, e.g., the height along a road, indicates the height of the top of the road embankment above the adjacent terrain.

The south-east of the area appearing on the map is magnified threefold and the various gaps may differ largely from the actual ones.

The ungrazed heath and common in the street have been adjusted to the height of the open-felled heathlands, and may not be exactly in accordance with them.
