

MSHPPL/SHP/2019/ 08

Dated: 29-10-2019

To Whom-So-Ever It May Concern

Note Containing Justification for Location of Marshall SHP Project of Capacity 24.75 MW at District Rewa of Madhya Pradesh in Forest Land

After detailed topographical survey of the river course near the project area covering the locations of major components for a detailed assessment of the project component locations and their feasibility, M/s Marshall Small Hydro Power Pvt. Ltd. has come to the conclusion to pass the power canal from the forest land for the proposed Marshall Small Hydel Power Project of Capacity 24.75 MW at Village Chachai, Tehsil Semariya, District Rewa, as it involves less area of Forest Land, minimum felling of trees and low density bushes.

For Marshall Small Hydro Power Private Limited
