NOTES

Heights are in metres and above Indian mean sea level.
Contours are approximate.
A relative height, e.g., 200, against a well, indicates its total depth in meter.
Unmetalled roads and cart-roads in this sheet are generally mettable in dry season. Permission to use these along roads is required from irrigation authorities.
The district boundaries in the Betwa and Dhasan River follow the main deep water channels and will change with the fluctuations of these channels.
Towns shown in this sheet are usually named after the month of July to December.
The boundaries are numerous throughout the sheet, only the important ones have been shown.
The kilometre scale numbers along railways and roads are shown in slant type, e.g., '5' whereas reference numbers are shown in upright type, e.g., '5'.
