## JUSTIFICATION FOR LOCATION OF PROJECT IN FOREST AREA

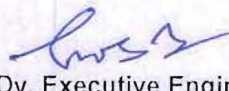

The Government of India has decided to provide connectivity to interior unconnected tribal villages with all weather roads for uplift of tribal villages under PMGSY programme. Accordingly P.R. dept prepared and submitted the proposals for "Road from ZP Road to Danthanpalli of Tiryani Mandal of Kumaram Bheem Asifabad District.". for a length of 3630.622 mts.. This road further leads to Mandal to District HQs.

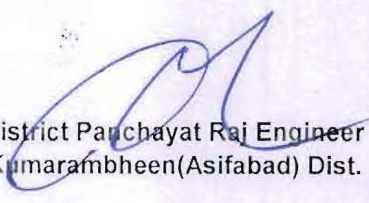

The above road connects following tribal villages ( Thatimadara-126, Buggaguda-94, Bheemjiguda-132 and Danthanpally-380. ). The road serves the total population of 732.

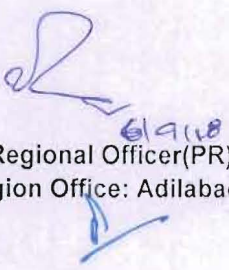

This road very essential to make Black topping, The people of above villages deprived of essential needs such as medical, educational, marketing facilities etc., due to unconnectivity to mandal headquarters and important villages. Improvement of these roads provides connectivity to mandal headquarters , district headquarters by which people get access to medical, educational, cultural , marketing facilities etc.,. It is very usefull to the Forest Department to transport the Bamboo in the season.

There is no alternative route is found to improve as the above villages are located in reserve forest and wild life sanctuary and it is hilly area. This is the only way created very long back by local tribal for their transport by walking. More over the area is very sincitive about LWE.
