Aerodrome, Helipad, Tourist site	...
Power line, with pylons surveyed, with poles unsurveyed	...

## REFERENCE

NP 25 National Highway No. 25

## NOTES

Heights are in metres and above Indian mean sea level.  
Contours are approximate.  
A relative height, e.g., 100, represents the approximate height, in metres, between the top and bottom of a steep slope.  
Cart-tracks along canals are generally metalled in dry season whereas other cart-tracks, against which there is no descriptive remark, are generally metalled in dry season. Permission to use those along canals is required from the Irrigation authorities.  
Tanks, shown dry, in this area usually contain water from July to December.  
Wells are numerous throughout the cultivated portions of this sheet, only the important ones have been shown.  
The kilometre stone numbers along railways and roads are shown in slant type, e.g., 127.5 where the kilometre number is shown in upright type, e.g., 127.  
Perennial streams in this sheet are fordable from October to June at places indicated as such.

COMPILATION INDEX

A	Surveyed during 1873-74. Updated for major details during 2005-06 and administrative boundaries updated during 2007-08.
---	---

Projection - UTM Datum - WGS 84

Magnetic Variation from True North about 0° in 2005.

(Increasing by about 1° East annually)

1:50,000

2 cm to 1 km

CONTOUR INTERVAL 20 METRES
