NOTES :-

Heights are in metres and above Indian mean sea level.
Contours are approximate.
A relative height, e.g., 100 represents the approximate height, in metres, between the top and bottom of a steep slope.
The kilometre stone numbers along canals, roads and railways are shown in slant type, e.g., 100 whereas milestone numbers are shown in upright type, e.g., 100.
Unmetalled roads and cart-tracks in this sheet are generally motorable in dry season. Permission to use these along canals is required from the Irrigation authorities.
Village and sub-village names are shown throughout the sheet, only the important ones have been shown. The common boundaries of the Reserved Forest have not been shown for want of reliable information. Tanks, shown dry, in this sheet usually contain water from July to December.

COMPILATION INDEX

A Modern Survey 1970-71. Updated for major details during 2009-08 and administrative boundaries updated during 2008-09.

Projection - UTM Datum - WGS 84

Magnetic Variation from True North about 4° West in 2005.
(Decreasing by about 1" annually).
