

Justification for locating the Project in forest area

Initially the land coming in the alignment was Khatedari land as per revenue record but during construction forest authorities objected and claimed that the land belongs to forest.

The matter was brought into the notice of State Government & a joint inspection was done by forest and revenue officers then it has been concluded that 1300 Sqm Ownership of land belongs to forest; accordingly proposal of forest land diversion is being submitted to take the NOC from forest department.

Justification for locating the Project in forest area

Route alignment of Proposed Road over bridge has been examined for social, technical and economical consideration and possible efforts were made to avoid the forest land by Municipal council, Makrana (ULB) for "**Construction of Road Over Bridge (ROB) at LC No. C-34/E2, Makrana**" but it was found not feasible, hence the Road Over Bridge alignment has been proposed along the existing road to minimize the forest land.

Looking to these aspects General arrangement drawing has been approved by State Government Rajasthan as well as by Railway.
