

परियोजना का नाम जनपद देहरादून के अंतर्गत आशारोड़ी चेक पोस्ट से डाटकाली मन्दिर तक NH72A पर मोबाइल कनेक्टिविटी प्रदान करने हेतु बीएसएनएल को वनभूमि हस्तांतरण स्वीकृति के सम्बन्ध में।

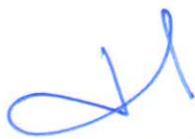

Justification

This section of the National Highway 72A from AshaRodi to Daat Kali Mandir is uninhabited and is covered by dense forest on both sides and is the connecting highway from capital city dehradun to other states and districts of Uttarakhand and hence, commuters travel through day and night also in case of emergencies.

Currently this stretch is not having any mobile connectivity due to which general public or tourists that commutes through the said stretch, face problems in the event of mis-happening or emergency (ex. Land Sliding, tree falling, accident, wild animal encounter etc.) to contact their near and dears as well as Emergency services (ex. Ambulance, Police, Fire etc.)

Provision of Mobile Tower on atleast three locations as mentioned will adequately enhance mobile network coverage and consequently increase safety of commuters along this stretch falling under Uttarakhand State jurisdiction.

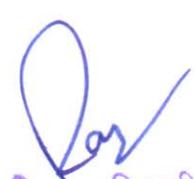

This project will also help the Forest Deptt. in their duties to enhance their network to protect the forest assets in the area.
