

Justification Report

As per the direction issued by Water Resources Minister, Kerala, on the request of Hon MLA Alathur Constituency complaint was registered through Kerala Water Authority's AQUALOOM. KWA is in a position to give drinking water to the applicants through Jala Jeevan Mission. On site inspection it was found that there is no drinking water facility in the above place. In order to provide water connection 18metre crossing of forest land (0.0009hectare) is necessitated. As there is no way available other than forest land crossing, permission may be allowed for earthwork to pipe laying in forest land.
