

**GOVERNMENT OF TELANGANA**  
**RURAL WATER SUPPLY AND SANITATION DEPARTMENT**  
**TELANGANA DRINKING WATER SUPPLY PROJECT**

APPENDEX

(See Rule 6)

**FORM-'A'**

Form for seeking prior approval under section 2 of the proposals by the state  
Government and other authorities.

**PART-1**

**(TO BE FILLED BY USER AGENCY)**

**1. Project Details : Laying of Pipe Line for Provide Safe Drinking Water to Bandala(V), SS Thadvai(M), of Mulugu district, of Thadvai division Palair segment- Segment 17/3/B - Mulugu.**

i) Short narrative of the Proposal for Project: The Government of Telangana has decided to improve the drinking water supply level to all the habitations in the new State to provide safe Drinking Water to all habitations in the State. To avoid Quantitative and Qualitative problems it is proposed to supply surface water. In this work the Clear Water Pipe lines are to be laid From WTP to GLBR's and Distribution pipelines are to be laid upto village OHBR's/OHSR's in the Segment -17/3/B - Mulugu. The treated water will be distributed through gravity pipelines to cover Bandala(V), SS Tadvai(M), of Tadvai division. The proposed Pipe line alignment is passing through the reserve forest area for which Forest Land Diversion is required.

ii) Map showing the required forest land and Boundary of adjoining Forest on a 1 in 50,000 Scale topo map.

: Map showing the reserve forest boundary is enclosed.

The land is meant for laying of pipelines in Segment 17/3/B - Mulugu.

iii) Cost of the Project.

: Rs. 0.95 Crores

iv) Justification for location the project forest area

: The proposed water Pipe lines in Segment 17/3/B - Mulugu have no other alternative route to minimize the cost and shorten the length. The proposed pipelines in the Forest Area are essential to maintain required ground level and to supply water to the habitation of Bandala(V), SS Tadval(M), of Tadval division in this part. As per the Hydraulic Designs and Topography of the Area the proposed locations are very much essential and there is no other alternative alignment.

v) Cost benefit analysis (to be enclosed)

: Enclosed

vi) Employment likely to be generated

: 3869 Mandays.

**2. Purpose wise breakup of the total Land required Extent**

: After working out various options in execution of the Pipe Line Works in the forest Land, the diversion of forest land to the minimum requirement is worked out. The details of the land requirement are here with enclosed for more clarity.

The purpose wise land requirement for  
1. Pipe line Portion - 0.3192 Ha.  
2. For Structures - 0.0312 Ha.

Total - 0.3504 Ha.

**3. Details of displacement of people due to the project if any:**

i) Number of families :

ii) Number of Schedule Caste / Schedule Tribal families. :

iii) Rehabilitation Plan :

No

**4. Where Clearance under Environment (Protection) Act, 1986 Required? (Yes/No)**

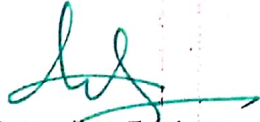

No

**5. Undertaking to bear the cost of rising and maintenance of compensatory Afforestation and /or penal compensatory Afforestation as well as cost are protection and regeneration of Safety zone., etc., as per the Scheme prepared by the state Government (under taking to be enclosed).**

: Enclosed

6. Details of Certificates / Documents : Enclosed  
Enclosed as required under the  
instructions.
