

## **NOTE CONTAINING JUSTIFICATION**

"This highway is passing through Bhiwani City. There remains heavy rush of traffic in the project length and therefore 4-lanning from Km.3.335 to 3.675 & Km.4.575 to 6.875 on NH-709A by way of widening of existing road has been approved by the MORT&H. This is existing road and eccentric widening has been proposed. There is no other alternative except to utilize the adjoining forest land. Therefore, the proposal of diversion of forest land is justified".
