

JUSTIFICATION FOR TORI - SHIVPUR RAILWAY PROJECT

Office of the Dy. Chief Engineer/Con/II East Central Railway, Hazaribag	East Central Railway (Construction Department)	No. DCE/C/HZME/TR-SH 
Date 31.07.2015		

Final Location Survey for Tori – Shivpur Rail Line Project was done over Tori to Shivpur for single Rail line. But later on it was decided that the final construction will be for Single Rail line with provision of formation and bridge substructure for two additional lines i.e. for three lines. Earlier proposal of forestry clearance was completed in 2011 and since then the land has been diverted to Railways as proposed.

Due to change of nature of land from Cadastral Survey to Revisional Survey and enhanced formation width due to two additional lines as mentioned above, some additional notified forest as well as deemed forest land is required for the construction of Tori – shivpur Rail Line.

Dy. Chief Engineer/Con/II
E. C. Rly, Hazaribag
