City Chennai.

NOTES

Heights are in metres and above Indian mean sea level. Contours are approximate. A relative height, marked along a canal indicates the heights of the top of the canal embankment above the adjacent country. The kilometre stone numbers along the roads, railways and canals, are shown in sans type, e.g. 5.7 whereas milestone numbers are shown in bold type, e.g. 5.7. Permission to use roads and cart-tracks along canal is reserved from the irrigation authorities. Tanks, shown dry, in this area, usually contain water from July to March. Cart-tracks in this sheet are generally impassable in dry season. Wells and tube-wells are numerous throughout the sheet; only the important ones, have been shown. Owing to periodical floods, the course of Ganga River is continually changing.

COMPILED INDEX

A Surveyed during 1969-70. Updated for major details during 2005-06.

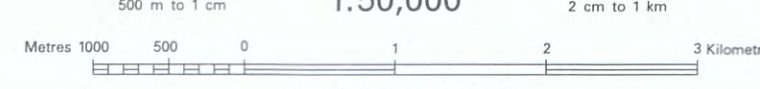

Projection - UTM Datum - WGS 84

Magnetic Variation from True North about 1° East in 1995.

(Increasing by about 1' annually).

1:50,000

CONTOUR INTERVAL 20 METRES
