JUSTIFICATION FOR LOCATING THE PROJECT IN FOREST AREA.

1.9683hac. of forest land is required for the construction of Gadasu Lauhti Punan road and 0-32-01hac. for dumping. The total length of the road is 6.478 kms. and **1.703** km. road already constructed. This road is being constructed to provide motor link to villages Lauhti Punan. The road will cater to the needs of population of about 1530 and will give a boost to the local economy. for the construction of this road and dumping sites 0-32-01hac. of forest land is required to be diverted. The survey work along with this proposed alignment was already completed.

Since all the beneficiary villages are surrounded by forest. No. any other alignment is feasible to connect the village Lauhti Punan. If any other alignment is proposed it will required huge area of forest land and large number of trees will required to be removed.

Hence there is no escape from using the forest land. This proposed alignment involved lesser no. of forest land hence finalized for construction of road.
