

JUSTIFICATION REPORT

The quarry leased granted by GOI, MOEF, Bangalore, Lr.No. F(c)A/11-2/116/AP/MIN/1777, Dt: 01.12.2013 in my favour for excavation of building Design Slate Stone in compartment No.33 Bollapalli R.F. of Ravulapuram Beat of Vinukonda Range in an extent of 3.56 Ha for a period of 20 years. Due to financial constraints and other problems I could excavate only 40% material from the leased area and still 40% of the material is yet to be excavated. The 40% of material excavated by generating employment to 100 to 150 families directly as labour maintenance work. The remaining 50% of Prosing unit & Raw materials can be excavated in another 20 years by considering the renewal request extending the lease period for another 20 years, as this is only source of employment to self and other labours depending on the quarry and not use for any other purpose.
