NOTES :-
Heights are in metres and above Indian mean sea level
Contours are approximate
Tanks, shown dry in this area, usually contain water from July to December
A relative height, as represented by the approximate height, in metres, between the top and bottom of a steep slope
Wells and tube-wells are numerous throughout the sheet, only the important ones have been shown
All cart-tracks along canals and connected roads in this sheet are generally metalled in dry season
Wherever other cart-tracks against which there is no descriptive remark are possible in dry season
Permission to use these along canals is required from irrigation authorities
The dotted and dashed boundaries where following the main deep water channel of the Gomati River, will change with the fluctuations of that channel
The kilometre stone numbers along the railways, roads and canals are shown in short type, e.g., '5' where the kilometre numbers are shown in upright type, e.g., '5'
