Sir,

Sub : TNEB – CBE Region – CEDC North – Establishment of 110/22-11KV Sub Station at the foothills of Maruthamalai – Laying of 110KV line on the Kanuvai hill – Approval requested - Reg

Tamil Nadu Electricity Board has proposed to establish a 110/22-11 KV Sub Station in between Bharathiar University and Kanuvai to cater the load growth to the above areas.

The 110KV EHT line for the above Sub Station has been proposed to take near K.N.G.Pudur and the towerline has to be laid along the Sanganoor Pallam till Somayanoor and from there it will be taken to the Maruthamalai side by crossing the Kanuvai hill. A sketch showing the tentative 110 KV line route is enclosed herewith. A corridor of width 30 Mtrs is required on the Kanuvai hill for laying the 110 KV EHT line.

In this connection, I would like to inform that the above new sub Station can be executed only if the 110KV tower line is laid as detailed above. Since there is no alternative route for taking 110KV EHT line from K.N.G.Pudur to Maruthamalai, as the entire stretch is fully habitated.

Under the above circumstances, it is requested that formal concurrence may please be issued for laying of 110KV line on the Kanuvai hill from the Somayanoor side to Maruthamalai side.

Yours faithfully,

Encl 1 Sketch
