Soil & Water Conservation Sub Division
Chandwad

Water features are shown in blue where they generally contain water.
Unsettled roads are generally motorable in dry season.
The kilometre scale numbers along roads, railways and canal are shown in short type, e.g., '3' whereas milestone numbers are shown in upright type, e.g., '51'.
Tanks shown dry in this area usually contain water from July to December.
Cultivation is profuse and dependent on rainfall.
The administrative boundaries in this sheet have been surveyed as pointed out by the local officials on the ground, but have not been verified by the concerned authorities.

GRID III A (Meters)

Grid references are given in hundreds of metres East and North of the south-west corner of the lettered square; thus the grid reference of Δ BENDALA is PW 231449 (for grid letters see body of map).
