CONVENTIONAL SYMBOLS

1. **What is the purpose of the study?**
 The purpose of the study is to investigate the effect of the use of the Internet on the learning of English as a second language (ESL) in a classroom setting.

2. **What are the research questions?**
 The research questions are:
 - How does the use of the Internet affect the learning of English as a second language?
 - What are the factors that influence the use of the Internet in the classroom?
 - How can the use of the Internet be improved in the classroom?

3. **What is the significance of the study?**
 The significance of the study is that it provides a comprehensive overview of the current state of research on the use of the Internet in the classroom, and it identifies the factors that influence the use of the Internet in the classroom.

4. **What are the limitations of the study?**
 The limitations of the study are that it is a cross-sectional study, and it does not include a control group.

5. **What are the conclusions of the study?**
 The conclusions of the study are that the use of the Internet in the classroom has a positive effect on the learning of English as a second language, and that the factors that influence the use of the Internet in the classroom are the availability of resources, the teacher's attitude, and the students' motivation.
