

The map is a detailed topographic representation of the Shimla region. Key features include:
 

- Shimla:** The main city, located at an elevation of 2449 meters.
- Sanjauli:** A town to the northeast of Shimla.
- Chhota Shimla:** A smaller town located between Shimla and Kasumpti.
- Kasumpti:** A town situated to the south of Chhota Shimla.
- Chauri (Junga):** A town located further south, near the proposed site.
- Proposed Site:** Indicated by a blue arrow pointing to a location near Chauri (Junga).
- Topography:** The map shows significant elevation changes with contour lines and various peaks, including peaks at 2175, 2125, 1893, 1988, 2086, and 2272 meters.
- Infrastructure:** Roads and railways are depicted, connecting the major towns and the proposed site.
- Geographical Features:** The map includes labels for various hills, valleys, and water bodies, such as the 'Waterworks Catchment' area.
