NOTES :-

Heights are in metres and above Indian mean sea level.

Contours are approximate.

A relative height, Δ , represents height. In metres, between the top and bottom of a steep slope.

Unmetalled roads and cart-tracks in this sheet are generally mettable in dry season. Permission to use these roads is granted by the Forest Department. Forest is required from irrigation and Forest authorities respectively.

Wells and Tube-wells are numerous throughout the sheet only the important ones have been shown.

Tanks shown on this sheet are usually concrete water from July to December.

Owing to perennial floods the course of the Rapti River is continually changing.
