NOTES :-

Heights are in metres and above Indian mean sea level.
Contours are approximate.
A relative height, e.g., 5, represents the approximate height, in metres, between the top and bottom of a steep slope.
The kilometre stone numbers along the railway and roads are shown in slant type, e.g., '5' whereas milestone numbers are shown in upright type, e.g., '5'.
Cart-tracks and unmetalled roads in this sheet are generally motorable in dry season. Permission to use these along canals is required from the irrigation authorities.
A relative height, e.g., 5, marked along a canal, indicates the height of the top of the canal embankment above the adjacent country.
Tanks, shown dry in this area, usually contain water from July to March.
Wells are numerous throughout the sheet; only the important ones have been shown.
