

**Full Title of The Project: Rehabilitation & up gradation of Agra-Jalesar-Etah road (NH-321G) from Km. 0.00 to 75.700 Km in the State of Uttar Pradesh**

**File No.:FP/UP/ROAD/156552/2022**

**Date of Proposal: 10-06-2022**

### **JUSTIFICATION FOR LOCATING THE PROJECT IN FOREST LAND**

This proposal of rehabilitation & up gradation of Agra-Jalesar-Etah road (NH-321G) from Km. 0.00 to 75.700 Km in the State of Uttar Pradesh is necessitated because of increase in vehicular traffic on the route & need to de congest the road to avoid traffic jams & accidents in view of passenger safety.

Since the proposal is for up gradation & improvement of the pre-existing national highway, the up gradation & improvement can only be done along the existing alignment by keeping in mind the environmental aspect, human resettlement aspect & technical feasibility of the project. As a matter of prudent environmental practices, no dumping in forests & minimum tree felling is proposed. **In view of above, the proposed alignment is site specific & can not be changed.**

Present route involves minimum forest, minimum tree felling, and no human resettlement & it is most technically feasible alternate thus selected and is being proposed. It should be noted that there is no alternate alignment & the forest land requirement of **1.7526 ha**. In social forestry division Etah is **inescapable & barest minimum**.

On Successful commissioning of this up gradation & improvement project, vehicular traffic will remain unaffected thereby providing service to commuters as well as transportation of materials.
