NOTES :-

Contours are approximate.
Heights are in metres and above Indian mean sea level.
A relative height, e.g., 50, marked along a canal, indicates the height of the top of the canal embankment above the adjacent country.
The major administrative partitions of districts in Andhra Pradesh State are called 'Mandals' and their boundaries are shown by thick boundary dotted.
Unmetalled roads are motorable and cart-tracks jeetable in dry season.
Tanks, shown dry, in this area usually contain water from July to December.
The triangulated heights and contours, in this sheet, have not been adjusted to the heights of the spirit-levelled bench-marks and may not be strictly in accordance with them.
Unmetalled roads shown along main and branch canals are motorable. Permission to use these roads is required from the Irrigation authorities.
The Reserved Forest boundaries have been surveyed as pointed out by the local officials on the ground, but have not been verified by the Divisional Forest Officer.
The kilometre stone numbers along roads are shown in slant type, e.g., '5', whereas milestone numbers are shown in upright type, e.g., '5'.
