REFERENCES

Notes are in italics and given either down or aside.

Continued approximations.

A relative height, h , represents the approximate height, in metres, between the top and bottom of a single storey.

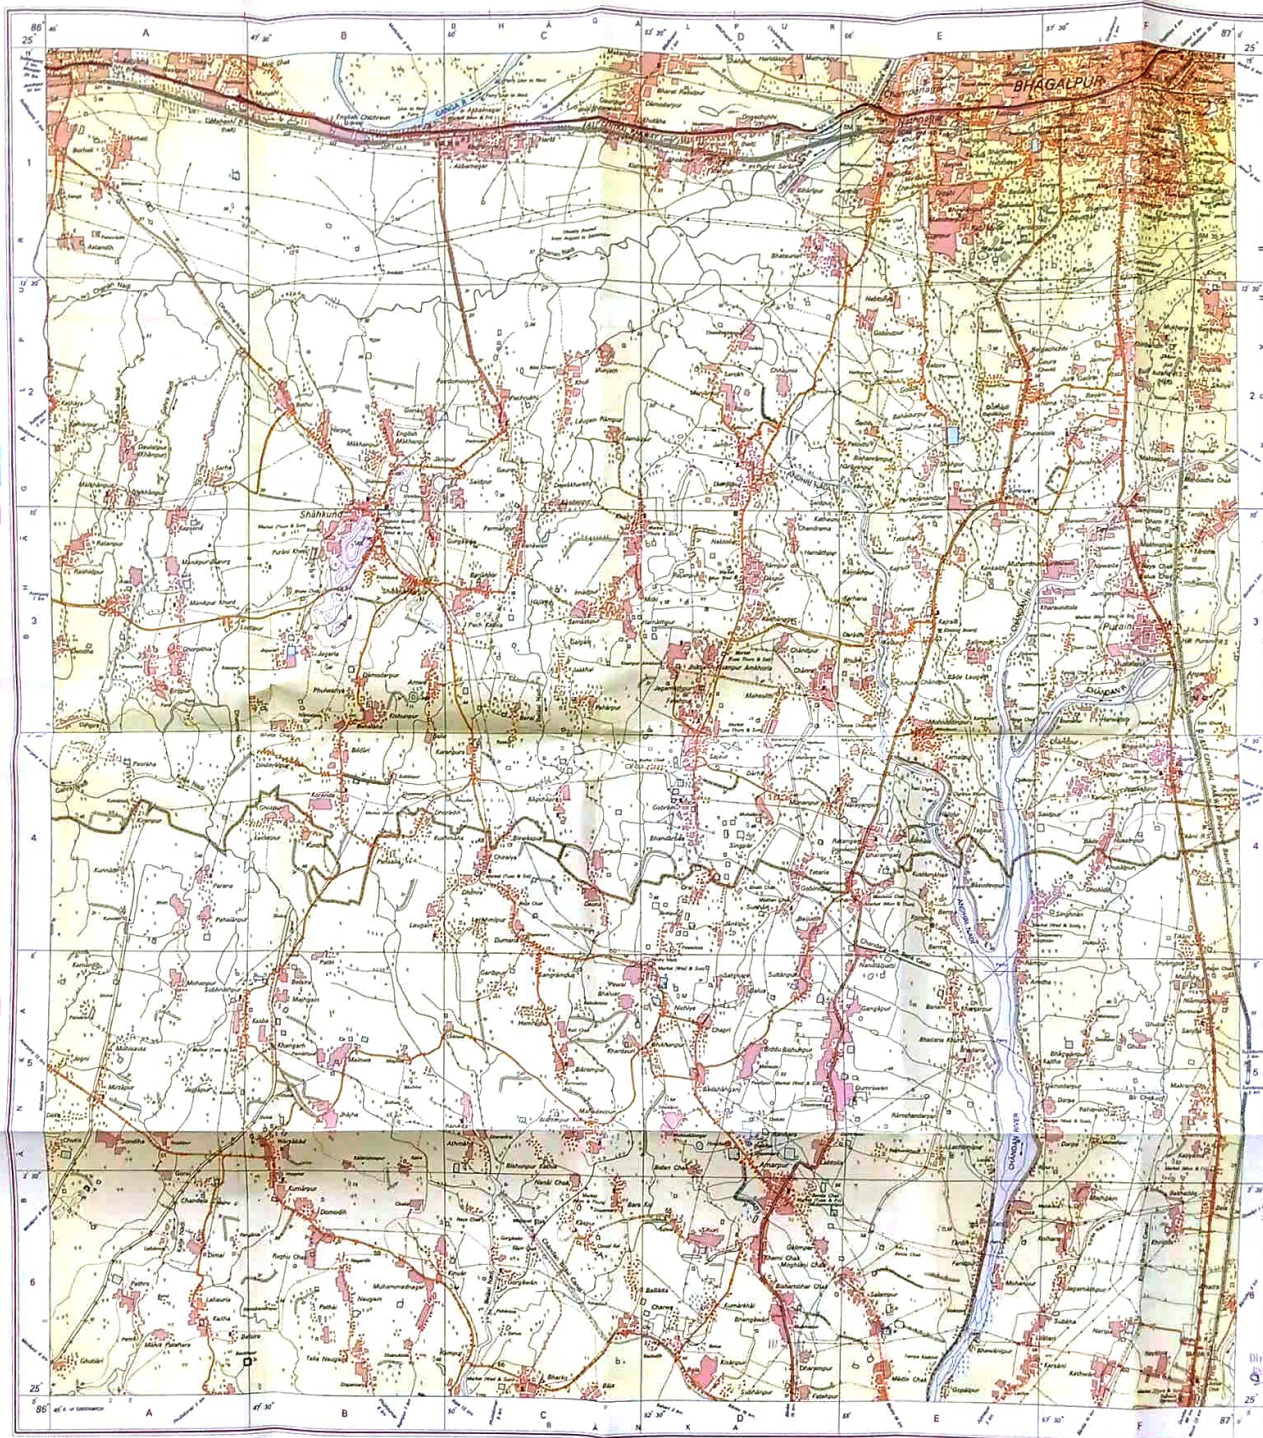

The approximate height and volume in this small house have been defined in the height of the three levelled floor levels and steps and are usually in accordance with local practice.

The following mean numbers along roads and sections are given in short form, e.g., 1.5×10^6 means between numbers are shown in weight form, e.g., 1.5×10^6 .
