

~~CHECK LIST SERIAL NUMBER~~  
**"JUSTIFICATION FOR LOCATING THE PROPOSED  
ROAD/PROJECT IN FOREST AREA."**

1.276 hectare of forest land is required for the construction of link road to village Upper Jamli to Baron Kathana km. 0/0 to 6/700. The total length of the road is 1.500 kms which passes through the forest land and no road length passes through non forest and this road is being constructed to provide motor link to the village Upper Jamli to Baro Kathana. The road will cater to the needs of population of 700 souls and will give a boot to the local economy. 1.276 hectare of forest land is required to be diverted for the construction of the road and 6 Nos dumping sites. Alternatives alignments which have technically feasibility were explored. Since the village Upper Jamli to Baron Kathana is situated on the other side of area hence there is no escape from using the forest land if the primary objectives of linking the village to the motor road is to be achieved. Out of the two numbers alignments one which involves less forest land as well as trees has been finalized for the construction of road.
