JUSTIFICATION

The village Sindoni Loharmal is located 32 km far away from the 66/11KV Khanvel substation. The above village is feeding power from Khanvel substation on 11KV Mandoni Rural Feeder. At present power is not available from the nearest transformer to release the water supply scheme service connection and hence the new 100KVA Transformer Centre is proposed at Sindoni Loharmal.

As there is no alternate route for erection of HT line through reserved forest the except the proposed route.
