

JUSTIFICATION OF THE PROJECT FOR CONSTRUCTION OF A NEW 66kV TRANSMISSION TOWER IN FOREST AREA (0.065 Ha.) AT DABUWA, NAMCHI SOUTH SIKKIM

1. Due to site condition (considering hills) and other technical parameters, the proposed location of Tower in the Forest land is inevitable and cannot be changed.
2. The proposed area is stable for the proposed 66kV Tower and suitable from Operation and Maintenance point of view.
3. The involvement of Forest area and trees to be felled out is kept minimum and nil.
4. The involvement of Wildlife Sanctuary is nil.
