NOTES:-  
Height in ft. metres and above Indian mean sea level.  
Contour line approximate.  
A value high, e.g., 40, represents the approximate height, in metres, between the top and bottom of a slope slope.  
Unmetalled roads in this sheet are generally metalled in dry season.  
Unmetalled roads inside the Forest are metalled in dry season. Permission to use these is required from the forest authorities.  
Cultivated areas under Ceded Forests are usually flooded during the monsoon.  
Forest boundaries in this sheet have not been shown for want of reliable information.
