

JUSTIFICATION FOR THE PROJECT LOCATING IN FOREST LAND

The construction of road from Lingchom SPWD road to Upper Lingchom (Khorong) road is a pending demand of the public for the development and easy accessibility to the village areas. The road construction falls under Gyalshing (T) Block and maximum construction of road falls under private land and part of Khasmal land is involved. The total length of the road is 4.5 km and the forest area (Khasmal) is 0.2772 Ha.. The connectivity is the primary requirement for development and the government has proposed to lift the economic condition of these villages, hence this proposal for improvement of this road is of utmost importance for socio economic upliftment of this area. While ensuring an easier accessibility to these villages, they will have way for socio economic development. The proposed road will ensure development in tourism sector. Hence, this road will become one of the main road of this area for timely implementation of Government schemes at the lowest grass root level and effective functioning of the government machineries.
