No alternate alignments have been examined. Initially, the violation of Forest (Conservation) Act, 1980 has been observed in the proposed road, as the formation cutting by the local people had been done to approach their house. As per directions of the Hon'ble H.P. High Court, the necessary Joint Inspection has been carried out by the Committee constituted by the Govt. of H.P. and the necessary Joint Inspection report of the committee has been placed in the proposal folders. No tree is involved in the proposed alignment. The user agency viz HPPWD has improved/upgraded the road to the motor able standard under PMGSY scheme Phase-I. The sufficient protection works like retaining walls and Brest Walls to make the soil strata stable are required to be done. The village to be connected is surrounded on all sides by forest hence it is not possible to avoid the forest and from any side. Hence this existing road has been selected as a final alignment.
