

Detailed Note on Project

The telecom cable always lay along the road side due to easy supervision, quick maintenance and low Cost of maintenance. The application does not have to acquire land for this purpose as the road side land belongs to NHAI and PWD in Rajasthan State. Laying of cable shall be done on a 45 cm Width of Surface land & up to 1.65 meter of depth and near to the extreme road boundary where alignment of trench will be done in such way that no tree will be required to cut. The laying of telecom cable along the roadside is an agreed policy of the application and ministry of surface Transport.

This Optical fiber cable will fulfill the need of telecom circuits and wireless broadband services and other data for the Government, gram Panchayats, Industries, rural people and society. This telecom Infrastructure shall lead to growth in economy and hence employment more employment and better living conditions of the geography/State/Country.

This new scheme of laying optical fiber cable is most modern and state of art technology in the field of Digital Telecommunication. Moreover the same cable will be provided most of new value added services as well as it will oter for the need of integrated services Digital Network.

BSNL Sawaimadhapur is entrusted by Government of India for the Project “Bharat Broadband Network” the salience feature of this project are: 100 Mbps band with connectivity, teleducation, Telemedicine, e-governance, Wi-Fi villages to each gram Panchayat of Karauli District.
