

## JUSTIFICATION FOR LOCATION OF PROJECT IN FOREST AREA

The Government of India has decided to provide connectivity to interior unconnected tribal villages with all weather roads for uplift of tribal villages under Pradhana Manthri Grama Sadak Yojana (PMGSY) programme. Accordingly PanchayathRaj Department prepared and submitted the proposals for **"from Bejjur to Somini of Bejjur (M) under PMGSY-Batch III scheme in Komaram Bheem Asifabad district, of Telangana state."** for a length of 8.00 Kms. Accordingly the work is sanctioned vide G.O.Rt.No.218.

The above road connects Gudem (Village) with Mandal headquarter Bejjur duly passing through many interial villages such as Indergaon (population-281), Rechini (296), Kushnepally (1071), Sushmeer (278), Somini (630), Moogavelly (310), Nagepally (161) and Gudem (1736). And this road links to Maharashtra border villages by crossing Pranahitha River at Gudem village. On this road sanctioned length is 8.00 Kms and 4.113 Kms length is passing through tiger corridor Zone.

This road is essential to make Black topping. The people of above villages deprived of essential needs such as medical, educational, marketing facilities, etc., due to unconnectivity to mandal headquarters and important villages. In rainy season it is very difficult to travel on this road as it is earthen & gravel surface. Improvement of these road provides connectivity to mandal headquarters, district headquarters by which people get access to medical, educational, cultural, marketing facilities etc., it is very useful to the Forest Department to transport the Bamboo in the season.

There is no alternative route is found to improve as the above villages are located in reserve forest and Tiger Corridor Zone. This is the only way created very long back by local tribal for their transport by walking. More over the area is sensitive about LWE.
