

Justification For Location of Project

The alignment road and electricity is Crossing the S.no. 143 in Village: Lothda Ta/Di:Morbi in Rajkot District of Gujarat state.

There is a Reserved forest land in between road and electricity route, hence it is necessary to permit the laying of pipeline in forest land to cross Reserved forest land. No other route is possible for road and electricity . Thus the proposal of diversion of Reserved forest 0.4725 land is justified well.

Our Land is situated in between in forest area so No alternative route is possible. Hence it is necessary to lay the pipeline in the forest area

Place : Rajkot

Date : 27 /01/2021
