

## JUSTIFICATION

Government of India MoRT&H has approved the road widening work under first phase of Annual Plan 2017-18 under NH(O) in the State of Telangana vide Job No.NH-163-TS-2017-18-47 dt.27-03-2018.

The existing road is 4 lane with median from the start of NH 163 i.e., starts at Chaderghat in Hyderabad passes through Amberpet, Uppal and connects to the Nehru Outer Ring Road and due to this, it is facing difficulty to serve a total traffic of 70648 PCU's where the road is passing through the forest Bhagyanagar Nandanavanam. Hence, the existing road is proposed for widening and construction of six lane elevated corridor by the funds available under annual plan 2017-2018.

The length of the road for which DGPS survey data is authenticated for an area of 0.624 Ha for widening and construction of six lane elevated corridor .

S.No	Division	RF Block	Length in 'm'	Width in 'm'	Area required in Ha
1	Medchal	Narapalli	323.25	6.2m on LHS and 13.10 on RHS	0.624
	<b>Total</b>		<b>323.25 m</b>	<b>6.2m on LHS and 13.10 on RHS</b>	<b>0.624 Ha</b>

There is no other alternative except widening and by providing service road.
