NOTES :-			
Contours are approximate.			

Heights in metres and above Indian mean sea level.
The top of the embankments and culverts in this sheet have not been adjusted to the heights of the split-levelled bench-roads and may not be exactly in accordance with them.
Tribes shown dry, in this area usually water from July to December.
Unmetalled roads, tracks, paths, etc., are not shown in this sheet. The year, permission to use does not require from the irrigation authorities. Other unmetalled roads and cart-tracks in this sheet are shown as they appear on the original survey. A relative height e.g., Dr., means above a point, indicates the height of the top of the canal embankment above the adjacent country.
The course of rivers, streams and drainage lines, Yamuna and Hindon Rivers are liable to change owing to continual siltation in the course of time.
Tribes shown throughout the sheet only the important ones have been shown.
Important areas are shown in black with names.
A relative height, Dr., represents the elevation above the top and bottom of a steep slope.

The total boundary in Delhi State have not been shown in this sheet for want of reliable information.

The state boundaries between Delhi & Haryana & Haryana & Uttar Pradesh States have been surveyed as pointed out by the local offices on the ground but have not been verified by the Government concerned.
