

**Full Title of the Project: "Diversion of 4.0144 hectare Forest Land for Construction of Road from Jalore City to Jalore Fort (Design Chainage 0+000 km to 5+176 km) Village, Tehsil and District- Jalore in State of Rajasthan".**

**Proposal No. : FP/RJ/ROAD/118453/2021**

**Date of Proposal : 04/01/2021**

**Applied Forest Area : 4.0144 hectare**

**JUSTIFICATION FOR LOCATING THE PROJECT IN FOREST AREA**

**"Construction of Road from Jalore City to Jalore Fort (Design Chainage 0+000 km to 5+176 km) Village, Tehsil and District- Jalore in State of Rajasthan".** Has been examined for Social, Technical and Economical consideration and possible efforts were made to avoid the forest land by "**Municipal Council, Jalore**" but Existing Road is already Passes through the forest land therefore there is no other alternative is feasible.

The Feasibility Study for Construction of road from Jalore city to Jalore fort via Jharneshwar temple is necessary looking to historical importance of the city and the fort. Visitors wish to see the fort for its glorious past but presently there is no connectivity between the city and the fort through the road. Only 1487 steps are available to connect the city and the fort. People use feet or palki to reach the fort which is not only cumbersome but also difficult to reach. Therefore necessity of constructing of road is being felt from many years. It is expected that the tourism industry, the granite industry and other industry will boost up after constructing the road.

Many options were discussed to connect the city and fort via different routes, Considering merits and demerits of all routs. Finally it was decided to connect the city to fort via Jharneshwar temple.

It is further stated that the area of forest land involved in the proposed alignment for **"Construction of Road from Jalore City to Jalore Fort (Design Chainage 0+000 km to 5+176 km) Village, Tehsil and District- Jalore in State of Rajasthan".** Area is bare minimum.
