

BHARAT SANCHAR NIGAM LIMITED

(A Govt. Of India Enterprises)

**O/o The Divisional Engineer Transmission, Albert Road telephone Exchange
Amritsar-143001**

Detail Note on Project

The telecom cables are always laid along the road side due to easy supervision, quick maintenance and low cost of maintenance. The Applicant does not have to acquire land for this purpose as the road side land belongs to PWD, Punjab State. Laying of cable shall be done on 0.5m width of surface of land & up to 1.65m of depth and near to extreme road boundary where alignment of trench will be done in such a way that no tree required to be cut. The laying of telecom transmission cable along road side is an agreed policy of applicant and Ministry of surface transport.

This Optical Fibre Cable system will fulfil the needs of telecommunication circuits, broadband services and other Data services for Government of India under National Optical Fibre Network (NOFN) project to connect all Gram Panchayats (GP) of India with fibre optics. This telecom infrastructure shall lead to growth in economy and hence more employment and better living condition of the geography/State/Country.

This new scheme of laying optical fibre cable is most modern and state of art Technology in field of Telecommunication. Same cable will cater the need of Integrated Services Digital Network.
