

Full Title of the Project:- C/O kharsi Dughal road km 0/0 to 2/003

File No.:FP/HP/ROAD/17841/2016

Date of Proposal:- 02 Mar 2016

Check list Serial Number:- 09

JUSTIFICATION FOR THE LOCATING THE PROJECT IN FOREST AREA

The proposed alignment for the said road has been carefully finalized after considering a total No. of three alternate alignment in all the cases a portion of the road shall pass through the forest area. The first alignment was considered with its commencing point from kharsi to Dughal road km 0/0 to 2/003. In this case the total length of the road worked out to be 2/003 km which involves 1.21 hect. of forest land.

The 2nd alignment is considered with its commencing point at km C/O kharsi Dughal road km 0/0 to 3/00 Road. In this case the total length of the road worked out to be 3/00 km which involved 2.0 hect.

The 3rd alignment is considered with its commencing point at km 3/500 km from kharsi Dughal Road. In this case the total length of the road work out to be 3/500 km the forest area involved stood 2.50 hect.

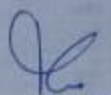

The 2nd and 3rd alignment has to be rejected because of extreme road length and more forest area involved. It involved more number of fully grown trees as compared to second alignment.

The alignment No. 1st serve more habitation rather than alignment No. 2nd and 3rd contrary above short coming of alignment 2nd and 3rd alternate alignment No. 1st is shortest in length involves lesser number of trees and lesser forest area.

Therefore keeping in view the above certain point in the favour of alignment No.1st the construction of road in this alignment would save from huge destruction of damages to the forest as well as to environment and beautiful beautiful feature of the valley.

Ultimately for the 1st alignment is finalized and adopted for the construction of proposed road which is most economical feasible best and is over all public interest as well easy for construction in all respect.
