

CHECK LIST SERIAL NUMBER 9

JUSTIFICATION FOR LOCATING THE PROJECT IN FOREST AREA.

The location of the proposed project has been finalized carefully after considering various aspects. The possible two alternatives to minimize the forest area as well as number of trees were also exhausted but we find the proposed one involving minimum number of trees as well as forest land for the construction of road, laying of transmission line and Drifh. Accordingly the location has been finalized. Moreover, the inhabitants of the surrounding villages will get road connectivity, and it will certainly facilitate them in transportation of their cash crops and other markets products.
