

Justification for project

The applicants their field are situated besideb Dam/Bandh of village Nana Ashota. There is a Dam/Bandh near Costal area near Vil: Nana Ashota and our 40 vighas means 15 Acres land of us situated besides this Dam/Bandh. The water for agriculture irrigation ,farm agriculture, and drinking water for animal and farmer is not enough. the agriculture land situated near costal area so the groung water is salty and not good for people & animal health and also not use for agriculture.

This is certified that the site / Alignment of laying out underground water pipe line from farm(Khata.no.139 At.Nana Ashota Ta.Khambhaliya Di:Dev bhumi Dwarka) to nearesr Dam/Bandh , in between forest land situated S.No.128 pt/1 At.Nana Ashota Ta.Khambhaliya Di:Dev bhumi Dwarka so we require 0.098 Ha. Forest area as per our requirement.

At present there is already many trees and plantation also. So by the pipeline facility in this field will be very blessing for the agriculture irrigation and farm agriculture for above applicants so we have applied for installing pipeline from the Dam/Bandh to our Field.

Whereas the proposed pipeline will pass through forest land of the Jamnagar forest Division and 980 R.mt. forest land will be ouquiped by installation of this pipeline also we have not any other alternate except using th forest land. We have applied for permission for installing pipeline in forest land which will be 980 R.mt. along and 1 mt. broad so 0.098 Ha. Forest land will be used for above purpose. We will install two 6"(inch) dia PVC Pipeline for using in field.

The area requested for diversion by us is the bare minimum area and no other way is possible for use less forest land as well as 0.098 Ha. We will utilized the minimum forest land for passing out underground water pipe line use of 0.098 Ha. forest Land.

At last we promise you that we will follow all rules and regulation of forest division and we will utilize minimum forest land also we will care all the proposed forest land also so that there will not be any other effect of installation of the pipeline.

At last we requested you to consider our proposal and permit us to install pipeline in forest land as early as possible.

Place : Nana Ashota
