

Justification for locating the Project in Forest Land

Location for Cement unit was suitable in this area as limestone mineral deposit being major raw material for the production of cement is found near this area. Quality of limestone mineral required for production of cement is also most suitable. Location of the Cement unit is also within the approachable distance of National Highway.

For, Hills Cement Company Limited

A handwritten signature in blue ink, appearing to be "S. S. Sam" or similar, written over a horizontal line.
