

JUSTIFICATION

The Integrated Water Management Plan for the supply of filtered drinking water to cater major rural area of Dadra & Nagar Haveli is taken up by the Administration of Dadra and Nagar Haveli through District Panchayat, Dadra and Nagar Haveli. The aim of Government of India is to provide potable drinking water to the each pocket through pipeline as an essential service. The proposal includes the laying of network of pipeline for rising main/gravity main and distribution along/across the roads of Falandi , Galonda and Umarkui village. There is no alternative route for the laying of pipeline except the proposed route.
