

Title of the Project: C/o Link road Fagla to Benoi km 0/0 to 5/500

File No.

Date of Proposal:

Check List Serial Number:- 10

Justification for locating the road in forest area

3.73 hectares (including dumping) of forest land is required for the construction of Link road Fagla to Benoi km 0/0 to 5/500. The total length of the road is 5.500 km out of which whole 4.300 kms of road will pass through the forest and 1.200 km will be pass through private land. This road will be constructed to provide link road to the village Benoi and other adjoining sub village i.e Fagla, Rouni, Nichla Fagla and Benoi. The road will cater to the needs of population of about 500 and will give a boost to the local economy. For the construction of this road and also for dumping muck at proper dumping sites 3.73 hectares area of forest land is required to be diverted.

All the beneficiary villagers are surrounded by forest hence there are no other alternatives but to follow the proposed alignment to avoid breaking of more forest land. So as to give connectivity to the above villages. Hence there is no escape from using the forest land. As no other site alignment is feasible.
